Elastic Polyurethane										

GLOSSARY

Bolt Hole Fitting Single Hole Fixing
Plate Fitting Square Or Rectangular Flat Plate
Swivel Able To Rotate 360 Degrees
Fixed Rigid Position Only Able To Move Forward Or Backward
SWB Able To Rotate 360 Degrees & Brake Wheel & Swivel Head
BK Able To Rotate 360 Degrees & Brake Wheel Only

Load Capacity Unit Of Measurement Under Ideal Working Conditions
Elastic Resilient Material
Non-marking Unlikely To Mark
Pressed Steel Formed Shape From Flat Sheet
Fabricated Fabricated from Welded Components
Self Colour Untreated Material Colour
Nylon Generic word often used for Nylon or Polypropylene

USE AND OPERATION

01
 When retracted, the foot pitches upward in the direction of motion and contacts the wheel on a point. This ensures ramp clearance, impact resistance and the foot will not be damaged by the rotating wheel.

02
 The foot is adjusted downward until it touches the floor. Over a few turns, the weight will be fully transferred from the castor to the extended foot.

TRUCK LOCK

Our Truck locks are designed to enable a quick, free and easy change between locked and free movement modes. This is restored by the quick release pedal and moderate force. Our Truck Locks are of pressed steel with a zinc-plated finish.

PLATE OPTIONS

PALLET ROLLERS

PALLET ROLLERS NYLON OR POLYURETHANE

Pallet Rollers are specifically designed as replacement pallet rollers on pallet trucks and fork lift trucks. With an extra wide tread and ball journal bearings these durable and robust hardworking pallet rollers can take loads of up to 950k.

With a variety of pallet roller wheel diameters to suit your requirements in either polyurethane or nylon.

STEPS / STEP TRAY TROLLEYS

STEP LADDERS

All classic models are fully welded throughout and available with ribbed rubber or anti-slip treads.

Close fitting continuous single rail guard around top platform, extending down each side of stairway as a short handrail.	Spiggot OD 18.5mm*
Fitted with dome covered spring loaded, 50mm dia swivel castors which retract when weight is applied to the steps, giving them firm contact with the floor.	Spiggot Length 85mm
Grey non marking tyres.	Fixing Hole dia: 5mm
Dome covers have a double rolled bottom edge together with a protective cover strip, giving a neat appearance and reasonable protection to carpets and other floor surfaces.	Fixing hole centre from base of tube 10mm
	The I/D of the tube on the step itself that we have is 24.1mm* so there is a fair amount of clearance / tolerance.

STEP TRAY TROLLEYS

3 Step, 3 Tray Tiers

Spring loaded step unit, with ribbed rubber treads, locates firmly on floor when foot placed on first step, immobilising trolley.

Top tread height 686mm

Fully welded construction, from RSA angle and ERW tube. Rubber feet fitted to step unit. Blue Epoxy finish.

5 Step, 3 Tray Tiers

Fully welded from RSA angle and ERW tubes.

Fitted with 2 retractable castors in front and 2 fixed castors to rear, each with 125mm rubber tyred wheels and roller bearings.

Front castors retract with hand operated lever to immobilise trolley. Fixed steps, handrail fitted to each side and across the top.

HOOF CASTOR

Hoof Cup Feet steps are mounted on retractable spring castors to enable the steps to be easily moved into position. When under the operator weight steps lower to grip the floor.

Spiggot OD 18.5mm*

Spiggot Length 85mm

Fixing Hole dia: 5mm

Fixing hole centre from base of tube 10mm

The I/D of the tube on the step itself that we have is 24.1mm* so there is a fair amount of clearance / tolerance!
